

If  $a \left(\frac{1}{a}\right) = 1$ , then \_\_\_\_\_ are called reciprocals.

A)  $a$  and  $\left(\frac{1}{a}\right)$

B)  $-a$  and  $\left(\frac{1}{a}\right)$

C)  $a^2$  and  $\left(\frac{1}{a}\right)^2$

D)  $\sqrt{a}$  and  $\sqrt{\frac{1}{a}}$

If  $a \left( \frac{1}{a} \right) = 1$ , then  $a$  and  $\left( \frac{1}{a} \right)$  are called reciprocals.

Answer **A**.
