

If  $k$  is nonnegative constant, then \_\_\_\_\_ is equivalent to  $x \leq -k$  or  $x \geq k$ .

A)  $|x| < k$

B)  $-k < x < k$

C)  $|x| \geq k$

D)  $x < -k$  or  $x > k$

If  $k$  is nonnegative constant, then  $|x| \geq k$  is equivalent to  $x \leq -k$  or

$$x \geq k.$$

Answer **C**.
