

The graph of $f(x) = (x + 4)^3$ is the same as the graph of $f(x) = x^3$ except that it is shifted _____ units _____.

A) 4 ... down

B) 4 ... to the right

C) 4 ... to the left

D) 4 ... up

The graph of $f(x) = (x + 4)^3$ is the same as the graph of $f(x) = x^3$ except that it is shifted 4 units to the left.

Answer **C**
