

If $c > 0$, the solutions of $x^2 = c$ are _____ and _____.

A) $x = \sqrt{c}$... $x = \sqrt{2c}$

B) $x = \sqrt{2c}$... $x = -\sqrt{c}$

C) $x = \sqrt{c}$... $x = -\sqrt{2c}$

D) $x = \sqrt{c}$... $x = -\sqrt{c}$

If $c > 0$, the solutions of $x^2 = c$ are $x = \sqrt{c}$ and $-x = \sqrt{c}$.

Answer **D**
