

The graph of $y = f(x) + k$ ($k > 0$) is identical to the graph of $y = f(x)$, except that it is translated k units _____.

- A) upward
- B) downward
- C) to the left
- D) to the right

The graph of $y = f(x) + k$ ($k > 0$) is identical to the graph of $y = f(x)$, except that it is translated k units upward.

Answer **A**
