

The graph of  $y = f(x) - k$  ( $k > 0$ ) is identical to the graph of  $y = f(x)$ , except that it is translated  $k$  units \_\_\_\_\_.

- A) upward
- B) downward
- C) to the left
- D) to the right

The graph of  $y = f(x) - k$  ( $k > 0$ ) is identical to the graph of  $y = f(x)$ , except that it is translated  $k$  units downward.

Answer **B**
