

If  $I$  is the identity function, then  $(f \circ I)(x) = \underline{\hspace{2cm}}$ .

A)  $0$

B)  $I$

C)  $f(x)$

D)  $I(x)$

If  $I$  is the identity function, then  $(f \circ I)(x) = \underline{f(x)}$ .

Answer **C**
