If $a \left(\dfrac{1}{a} \right) = 1$, then _____ are called reciprocals.

A) a and $\left(\dfrac{1}{a} \right)$

B) $-a$ and $\left(\dfrac{1}{a} \right)$

C) a^2 and $\left(\dfrac{1}{a} \right)^2$

D) $\sqrt{a}$ and $\sqrt{\dfrac{1}{a}}$

If $a \left(\dfrac{1}{a} \right) = 1$, then $\underline{a \, and}$ $\left(\dfrac{1}{a} \right)$ are called reciprocals.

Answer **A**.
