

To solve a formula  $d = r t$  for  $t$ , divide both sides of the formula by

---

- A)  $t$
- B)  $r$
- C)  $d$
- D)  $1$

---

To solve a formula  $d = r t$  for  $t$ , divide both sides of the formula by  $r$ .  
Answer **B**
