

In the division $(x^2 + 2x + 1) \div (x + 1)$, $x + 1$ is called the _____, and $x^2 + 2x + 1$ is called the _____.

- A) dividend ... divisor
- B) dividend ... quotient
- C) divisor ... dividend
- D) divisor ... quotient

In the division $(x^2 + 2x + 1) \div (x + 1)$, $x + 1$ is called the divisor, and $x^2 + 2x + 1$ is called the dividend.

Answer **C**
