

The graph of $f(x) = (x - 5)^3$ is the same as the graph of $f(x) = x^3$ except that it is shifted _____ units _____.

- A) 5 ... down
- B) 5 ... to the right
- C) 5 ... to the left
- D) 5 ... up

The graph of $f(x) = (x - 5)^3$ is the same as the graph of $f(x) = x^3$ except that it is shifted 5 units to the right.

Answer **B**
