

The graph of $f(x) = (x + 4)^3$ is the same as the graph of $f(x) = x^3$ except that it is shifted _____ units _____.

- A) 4 ... down
 - B) 4 ... to the right
 - C) 4 ... to the left
 - D) 4 ... up
-

The graph of $f(x) = (x + 4)^3$ is the same as the graph of $f(x) = x^3$ except that it is shifted 4 units to the left.

Answer **C**
