

The graph of $y = f(x) - k$ ($k > 0$) is identical to the graph of $y = f(x)$, except that it is translated k units _____.

- A) upward
 - B) downward
 - C) to the left
 - D) to the right
-

The graph of $y = f(x) - k$ ($k > 0$) is identical to the graph of $y = f(x)$, except that it is translated k units downward.

Answer **B**
